

The screenshot shows the 'elysia alpha compressor' software interface. The interface is symmetrical and features a central 'elysia' logo. The parameters are organized into several sections:

- Top Section:** Thresh (+4 to +18 dB), Attack (0.01 to 24 ms), Release (60 to 300 ms), Ratio (1.1 to 2.4), EQ Gain (1.0 to 2.7), Mix (Direct to Compressed), Gain (0 to 20 dB), Soft Clip (11 to 24 dB), and Dither (0 to 10 %).
- Middle Section:** Feed Forward, EQ Freq (20 to 220 Hz), EQ Gain (0.3 to 1.6), Auto Fast, SC Gain (-1 to 80 dB), LP, HP, X10, and Soft Clip (6.0 to 19 dB).
- Bottom Section:** M/S Mode, Channel Link, Active, Gain Reduction, and Transformer (On/Off).
