

elysia mpresor

Project/Song:

Engineer:

Date:

The image shows a screenshot of the 'elysia mpresor' software interface. It features two identical channel strips, one for the Left channel and one for the Right channel. Each strip contains several adjustable parameters:

- Threshold:** A knob with values from -5 to 14.
- Attack:** A knob with values from 17 to 21.
- Release Ratio:** A knob with values from 5.0 to 10.
- EQ Gain:** A knob with values from 2.0 to 6.0.
- EQ Freq:** A knob with values from 90 to 260 Hz.
- GR Limit:** A knob with values from 3.0 to 6.0.
- Gain:** A knob with values from 0 to 20 dB.

Additional parameters include SC Extern, Auto Fast, and Anti Log. The interface also includes a central 'MPRESSOR' logo and various level meters.
